

NNPC / ENI / NAOC

NIGERIAN AGIP OIL COMPANY LIMITED RC2974

OPERATOR OF THE NNPC/NAOC/OANDO OIL LIMITED

ADVERT FOR TENDER OPPORTUNITY

**MUD AND BRINE CHEMICAL SUPPLY AND ENGINEERING SERVICES FOR NAOC
LAND AND SWAMP DRILLING, COMPLETION, RIG LESS AND WORKOVER
OPERATIONS**

NIPEX TENDER NO. 1000006603

(1) INTRODUCTION

The Nigeria Agip Oil Company Limited (NAOC) has a requirement to issue MUD AND BRINE ENGINEERING contract for the Scope of Work identified below on NAOC land and swamp area wells for two (2) years firm period each plus one (1) year optional extension.

NAOC therefore invites submissions for the purpose of technical evaluation from suitable and reputable companies having the capability and experience to undertake the under defined scope of work:

(2) SCOPE OF WORK

The work will comprise of Mud and Brine Engineering services for drilling, completion, workovers and rigless operations of NAOC wells in land and swamp areas.

As a mandatory requirement, the Supplier shall have the under-listed basic capability/materials/logistic to qualify for consideration

- Drilling and completion fluid management and associated services including but not

limited to design, mixing, testing and treatment with all items, ancillary and optional equipment. Preparing of special items, e.g lost circulation pills, stuck-pipe pills, etc., as and when required.

- Furnish all equipment, labour, materials and services. Supply timely on rig/well site all chemicals and additives required for mixing and maintaining the mud and completion fluids properties, inclusive supply of bulk barite and bentonite including but not limited to:

Oil Base Mud chemicals and additives.

Required environmentally friendly mud types (Esther, Olefin oil base muds or equivalent).

Water Base Mud chemicals and additives.

Required Spud-in mud and polymer mud types (glycol, silicate water base mud types or equivalent).

Completion Fluids chemicals and additives.

Required additives and chemicals for completion/workovers of standard (lightweight brine: Calcium Chloride, Potassium Chloride, Sodium Chloride, etc.) and high pressure wells (heavy-weight brine: Calcium Bromide or equivalent).

Bulk: Supply of Base Oil, Calcium Carbonate, Barite and Bentonite.

- Provision of logistic support: Required facilities for mixing, treating, storing, transferring and transportation of liquids and powdered bulk products. Required Supply Base in Port Harcourt, Warri and storage facilities at ONNE FOT shore base.
- Provision of all personnel and engineering support required performing the Work effectively and efficiently.
- Provision of a mud lab and mud testing facilities, equipment and instruments;

Failure to meet any of these requirements shall lead to outright disqualification.

CONTRACTOR shall conform to **ISO 9000** and **ISO 14000** series International Standard. All the activities shall be carried out with minimum impact on the environment and maximum care of health and safety of all concerned, directly or indirectly, with the activities.

(3) MANDATORY REQUIREMENTS
